Morgan Stanley

Information Technology Scholarships
Partnering strategically with both the business units and industry-leading technology companies across the globe, Morgan Stanley Information Technology continues to redefine the way the Firm conducts business worldwide.

Today's financial markets are increasingly global, complex and dynamic. As a world-class financial services firm, Morgan Stanley is well-equipped to meet these challenges. Utilizing innovative technology to deliver critical solutions and improve productivity, the Firm enhances its competitive position and profitability, while identifying and leveraging market opportunities.

We believe our people and our values—combined with our leading-edge technology and our ability to manage complexities in a constantly changing environment—will continue to establish Morgan Stanley as an industry leader in the information technology sector. To that end, Morgan Stanley invests over a billion dollars in technology each year. This funding enables the development and delivery of quantitative trading systems, cutting-edge modeling and simulation software, comprehensive risk and security systems, robust client relationship management capabilities, and a world-class infrastructure that is the backbone of these systems and tools.

At Morgan Stanley, you will find that our clients recognize both the value of our insight and vision and the competitive advantage that our applications and infrastructure bring to their businesses. Whether developing the state-of-the-art technology behind the industry's first auction-based initial public offering (IPO), customizing client technology solutions for hedge funds and money managers, or leading the way on the use of virtualization technologies, Morgan Stanley remains at the forefront of the innovation curve.

We aspire to be First Choice—for our clients, our shareholders, and our people. When looking to fulfill your professional goals and ambitions, remember that, each day, we also aspire to make Morgan Stanley the First Choice for the best and the brightest technologists...the First Choice for you.

Guy Chiarello
Chief Technology Officer
Morgan Stanley
NSBE/SHPE/SWE/Members (NSS) Scholarship

Over the years, many members of the NSBE, SHPE and SWE organizations have made successful contributions to the Morgan Stanley Information Technology organization. In recognition of this, we have developed an academic scholarship program exclusive to NSBE, SHPE and SWE student members. The scholarship consists of a $5,000–$10,000 academic scholarship and paid summer internship in Morgan Stanley's Information Technology Division.

Scholarship Details

> All recipients are awarded an academic scholarship and a paid technology internship

> Recipients applying during their junior year, or fourth year in a 5-year program, are awarded $10,000 during their senior year, or fifth year, to cover any unmet educational needs

> Recipients applying during their sophomore year, or in their third year in a 5-year program, are awarded $5,000 during their junior year, or fourth year, to cover any unmet educational needs

> Scholarships are renewed for the senior year in an amount of $5,000 at the Firm's discretion

Eligibility

> Have an active, consecutive enrollment as a full-time student as defined by his/her college during each semester of scholarship award

> Be a sophomore or junior at the time of application. If the student is in a 5-year program, must be in third or fourth year at the time of application

> Have demonstrated exceptional academic achievement (minimum cumulative grade point average of 3.0 on a scale of 4.0)

> Commit to a paid summer internship in the Morgan Stanley Information Technology Division in the summer following the time of application

> Be an active member of NSBE, SHPE or SWE organizations at the time of application

> Have demonstrated interest and aptitude in work with computers/technology

> Computer science or engineering major is preferred, but all majors and disciplines are encouraged to apply
Women in Technology Scholarship

The Morgan Stanley Women in Technology Scholars Program is a competitive scholarship program established to provide outstanding women with (i) a financial award for exceptional academic achievement, (ii) an opportunity to gain exposure to an exciting career in Information Technology and (iii) a meaningful relationship with one of the premier firms in the Financial Services Industry.

Scholarship Details

Richard B. Fisher Scholarship

Morgan Stanley has earned a worldwide reputation for excellence in financial advice and market execution. The 53,760 members of Morgan Stanley in 28 countries connect people, ideas and capital to help our clients achieve their financial aspirations.

Morgan Stanley's goal is to build and maintain a workforce that is diverse in experience and background but uniform in reflecting our standards of integrity and excellence. Consequently, our recruiting efforts reflect our desire to attract and retain the best and brightest from all talent pools. We want to be the first choice for prospective employees.

The program is named for Richard B. Fisher, the beloved former Chairman of Morgan Stanley. Born in Philadelphia, Mr. Fisher received his Bachelor's degree in History from Princeton University in 1957 and his MBA from the Harvard Graduate School of Business Administration in 1962 as a Baker Scholar with High Distinction. Mr. Fisher joined Morgan Stanley in 1962 as an associate in the corporate finance department. From the perspective of Morgan Stanley and the international world of business—as the proverbial phrase would have it—the rest is history. From corporate finance, he moved to the market-related side of the business and over a period of years was responsible for fixed income operations, equity and research, and then for all capital markets. He became a Managing Director and Partner of Morgan Stanley in 1970, President in 1984, and Chairman in 1991.

He was named Chairman of the Executive Committee in May 1997, following the merger with Dean Witter, and Chairman Emeritus in 2000. During the forty years Mr. Fisher was active at Morgan Stanley he played a decisive role in the transformation and expansion of the Firm into one of the most highly respected and powerful investment banks in the world. Under his leadership, Morgan Stanley diversified, innovated, globalized and above all recruited the best talent in the world of finance and banking. The key to his achievement was not merely his powerful business acumen but his judgment and character. What made him stand apart were his wisdom, clarity, and the human qualities of empathy, insight, generosity, and honor—all this while living with polio, which affected him in early childhood. Mr. Fisher, who passed away in 2004, truly led an extraordinary life and those of us who were lucky enough to know him directly or indirectly were the recipients of a great gift.

The Morgan Stanley Richard B. Fisher Scholars Program is a competitive scholarship program established in June 1993 to provide outstanding minority students with (i) up to a $10,000 financial award for exceptional academic achievement, (ii) a summer internship with Morgan Stanley and (iii) a meaningful relationship with one of the premier firms in the industry. We encourage students of all majors and disciplines to apply. Morgan Stanley Richard B. Fisher Scholars are selected to work as summer analysts in our Information Technology Division.

For more information about our information technology division, we encourage you to visit our Web site at http://www.morganstanley.com/careers/recruiting/index.html

Eligibility

> Be a sophomore or junior at the time of application. If the student is in a 5-year program, must be in third or fourth year at the time of application

> Minimum cumulative grade point average of 3.0 (on a scale of 4.0)

> Interest in technology within the financial services industry

Morgan Stanley
Information Technology Scholarships

Professor/Academic Dean Recommendation Form

The student has applied to one of Morgan Stanley’s Information Technology scholarship program. If selected, he/she will be placed in a paid summer internship position at the Firm the summer before his/her senior year, and will also receive a $5,000–$10,000 scholarship. Please return your letter of reference on department letterhead to the student in a sealed envelope, making sure to sign your name across the sealed back flap of the envelope.

Please answer the following questions:

1) How long have you known the applicant and in what capacity?

2) Evaluate the student’s academic performance relative to his/her peer group, and if possible comment on the student’s analytical or quantitative abilities.

3) Describe the student’s contribution to the enhancement of the classroom or campus educational experience of his/her peers.

4) Describe an observation of this student or circumstances that have led you to draw conclusions regarding the student’s character.
