Interviewing Skills Workshop

General:
- What would you say has been your greatest failure?
- What is your greatest strength and weakness?
- Tell me about your greatest challenge and how you dealt with it.
- How do you react to criticism?
- What is your preferred role in a team?
- Tell me about a time that you have successfully demonstrated your problem solving skills.
- Describe an experience where you were faced with technical difficulties. How did you handle it? If you were to do this again, would you do it differently?
- What have you done that demonstrated your leadership abilities?
- What obstacles have you faced as a young researcher?
- Why should we take you above everyone else?
- Why have you changed jobs so frequently?
- What salary are you looking for?
- Tell me about yourself.
- Why would you like to work here?
- What are your career goals?
- Who is your hero?
- Why should I hire you?
- Do you set goals for yourself?
• What characteristics would you look for in a good manager?
• What are your limitations on travel?
• What are some of your values?
  
  
  
  Technical:
  • How many cats are there in the USA?
  • Give me an example of when you provided a solution to a complex problem?
  
  
  Puzzle:
  • Give me an example of when you provided a solution to a complex problem?
